RE: Expiration of Mineral Materials Permit ML 50501-MP
Reclamation of Mined Land, S0550026

Gentlemen:

The above numbered Mineral Materials Permit expires on September 30, 2008 and will not be renewed. During the term of the Mineral Materials Permit the permittee opened a mining pit which must be reclaimed. Reclamation shall consist of completely filling in the open pit up to the top level using adjacent overburden materials. Reclamation shall also consist of any other tasks required by the Division of Oil, Gas & Mining in accordance with your reclamation contract that is on file with that office.

Please complete all of the required reclamation within thirty (30) days from the expiration date of ML 50501-MP, i.e., no later than October 31, 2008. Failure of the permittee to timely or satisfactorily complete reclamation as described above may result in forfeiture of the reclamation bond posted for this project. Please contact me if you have any questions.

Sincerely,

John T. Blake
Trust Land Specialist
